G O S T

**Describe your practice in 3 words**

Interactive, playful, and experimental

**How did you first get into Art?** I always liked to draw and paint as a kid, loved art classes, but to be more specific, my first ceramic class was an elective course I took in junior high when I was studying in the US (I made a really horrible teapot...).

**What is it that you love about the concept of small?** For me, the scale of being small speaks directly to our body, therefore it is very inviting. Anything that is within the size of our hands can be easily engaged, we also tend to appreciate more of the details because it is physically designed to narrow our focus.

**Your Happy Birthday message to GOST** Congrats for turning 5!!! I sincerely wish GOST a wonderful birthday, you sure deserve it after all the joy and love you brought to the world!!

**An achievement that stands out for you in your arts practice between 2017 and 2022** I held a 2020 interactive solo show at the Yingge Ceramics Museum in Taiwan, I can't believe I actually pulled it off XD!! (I was really lucky not being affected or canceled due to COVID).
